Claims 1-6 are provisionally deemed to contain allowable subject matter however the prior art submitted by applicant is so material to the claimed subject matter as to require a translation so that the examiner can fully appreciate the nature of its disclosure. Please furnish the Examiner with a full translation of JP 61-037516, as it is so relevant to the allowability of these claims that it cannot be properly considered until the Examiner fully understands it. In particular, the Examiner must know what "question block" 114 is asking and all of the related explanation related to "question block" 114 in the specification of JP 61-037516. Since this prior art reference (JP 61-037516) provided by applicant was examined in Japan, the prior art relied upon by the Japanese Patent Office is requested as well, and if it is in Japanese, either a translation or English equivalent is requested.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
